

Motown & Reinstrumentation

Queen of Queens Diana Ross is my Queen of Soul and there can be but one God the Father "GodFather" so who was James Brown?

Diana & Barry as Partners built Motown and Motown was my Soul Music and Motown did more for the Black Artist than any record company ever. So Diana earn her title Queen of Soul. And she paved the way for most of these artist who are black, male or female. And the Supremes went unmatched.

Brandy who I renamed to "Brandi" to you I say this, "Honor your Father and Mother." To deny yourself the name Brandi Ross, is to say, I do not want Motown, I want my own startup company and to prove what? Diana, Michael and "Barry Gordy of Sandersville GA" are all children of Elijah who is my Seed.

Now you can do what you was supposed to do in the first place and Fix Motown. I want Louis to rebuild Moter City, where 35% of all the U.S. Salt is mined.

And we are going to update the Motown Catalog using DAN Technology.
