

THE WMA Pro Revolution

#1) WMA = 5x less than WAV. Format and has equal or perhaps better sound quality.

#2) Do not stop supporting WAV Compact Discs but make all future CD's WMA. Compatible.

THE Introduction in Retail & Market WMA Compatible CD Players

#1) My artist are all tried and proven and have many WAV CD projects.

#2) Release many top name artists, Michael Jackson, Prince, Whitney Houston, Janet Jackson, Beyonce, Rihanna, Mariah and the list goes on, on WMA Compact Discs.

#3) THE 1st Four (4) Being Michael, Prince, Whitney and Janet. Five (5) Complete WMA Formatted CD's of ≈ 75 songs on a single CD, for \$24.99 or even \$19.99 a \$99.99 value. Just 10 million sales will equal \$200 million earned. Then start marketing everything we already produced into re-distribution and even mixed artist or mixed CD's for \$24.99 at 60-75 songs per CD. But only the old stuff.

#4) Now with the new DAN/V.V.T. Technology, put out new 25-30 songs WMA Pro projects at \$13-\$15 per WMA CD. And the future will be those smaller CD's you can run in computer drives with 15 songs.

#5) THE 3.0 High Speed Flash Drive in ROM Format or the 3.0 H.S.F.D. made in 2 GB modules, so kids do not lose \$1,000 in music by using a H.S.F.D. of 64 GB and set up with the whole industry of Copyrighted Protected Media sold at our Download Centers nationwide.
