

\* Rabbits For Food & Fashion \* [THE WORLD HUNGER SOLUTION Rabbit Meat]

This is a Native God-Is-Real Resource out of Oklahoma. They Fed us this at Ft. Sill. It was billed as testins like chicken. It is a white meat, but often I threw half of it away because it was not cooked all the way through. THE Servings was too large to cook consistently properly. Solution: Downsize the Servings being it is skinless and breaded like chicken anyway.

\* Love Bunny Fried

Sell it in cutlets like Fish Sandwiches, with Fries and a Soda. Bunny Mussets, Bunny Sticks and even Bunny Breast or thighs but portioned or Baby Bunny Breast. Start with about 500 to 1,000 Fast Food Restaurants nationwide. It will pick up if properly seasoned, most of the guys eat it all and looked forward to when it was served. Selling Rabbit meat will overcome the Phobia of these animal activists when the big movie next comes.

\* Rabbit Fur Fashion Explosion

Rabbits breed like rabbits, meaning and (never ending) resource of natural raw product. Place the Farms in Oklahoma. Now we sell Rabbit Fur Felt, Rabbit Fur Coats, Rabbit Fur hats, jackets, shoe inserts, Boots, you name it and at a good affordable price line. Dyed in every color imaginable and we can grow the Fur market based on the growth of the Food market. And Rabbits, breed like Rabbits and eat like Rabbits. A win, win investment and agenda. Who wants a mink or fox coat anyway? Rabbit is soft and if you must blow money, we will sell it on Buller soft & soft leather as well. And sell the beef.
