

Commercialization of Commercial Television

* NYC HAS GREAT DISTRICT ATTORNEYS

Commercials have become mini-dramas with no name actors that sell nothing. One after another, you sit there for 1 minute and for 5 seconds at the end that get to the point. As a result the show you want to see ends up 20 minutes in a 30 minutes slot. So who is paying for the shows and commercials? THE Cable Fees? IF I must watch dances, ^{hear} ~~hear~~ singer see a mini-drama, it better be a star who I want to watch. I'd rather see 5/20 second interruptions that get to the point. A) Lugo shot (Love Bunny Fried) (B) Slugs to a theme song "Solutions World Burger, Love Bunny Fried" (C) Zirc and Zendaya ^{Repeated 3 times} biting a bunny burger in a Rabbit Fur coat and hat (Ends with Lugo and the store, so I know one when I see one. 20 seconds and the next commercial or 30 seconds and the next with ~~nobody~~ ^{nobody} dances to end it with a 5 seconds (Sleeper Bed) now what did ~~all~~ that dancing have to do with a ~~damn~~ ^{damn} bed? What? THEY call themselves entertaining me with nobody, actors, singers and dancers. THIS is a damn insult to Share-holders and television viewers. And these long ass boring ~~car~~ car commercials, knowing I am not buying a fucking car behind this bullshit. These are SCAMS!

THE MICROSOFT I.T. Difference:

- * "Less Commercial Interruption, using to the point advertisement selling points by real stars."
- * "Television Shows you get to watch and enjoy"
- * NEW: Microsoft Internet Services (Free ^{SET Premium} Channel)
\$25.99 No Contracts - Monthly Service
- * "Why pay high cable bills, when commercials pay for the shows you really get to watch."
- * THEN Around November, as the shopping season begins, we reduce ads on cable television. As a result, they use unethical commercialization and then the FCC weighs in.

Apply FCC regulations to prevent Foreign Control of U.S.A. Media.
