

Music creation and production options by allowing powerful software seamless applications of unimpossible synchronization.

3A Retail

Sold at Guitar Center, SAM Ash and other selected retailers. Commercial Versions (Best Buy - Circuit City)

3B Qualification of Sellers

Sold by qualified IBM/Microsoft DAW/V.V.T. Sale technicians (Certified)

Basic Features (By knowing music & video BPM)

Acid Pro, Reason, Cubase, Recycle, ~~RE~~ REX, Vegas and VST Synchronization.

1) create an instrument in Reason and save it in Acid Pro and play loops with Tempo and key changes at a fly.

2) create a musical composition and press batch construction kit and have every bar of different melody converted into a 4/4 Bar to be used as Acidized loops / just name your loops, one by one.

3) create a melody in several instruments for a great set harmonic playback. A band playing together.

Take a 360° photo, input photo into V.V.T. program using a Ronald Isley Split and Michael Jackson's moonwalk to your photo and go-go ~~chasing~~ dancing using video loops on a Acid Pro style platform, Synchronized with Lip Sychic technology and you are on your way to the creation of a Great 21 Century music video. Once you pay for the use of copyrighted protected motion loops.
